## Evening by H.D.

The light passes  
from ridge to ridge,  
from flower to flower -  
the hepaticas, wide-spread  
under the light  
grow faint -  
the petals reach inward,  
the blue tips bend  
toward the bluer heart  
and the flowers are lost.

The cornel-buds are still white,  
but shadows dart  
from the cornel-roots -  
black creeps from root to root  
each leaf  
cuts another leaf on the grass,  
shadow seeks shadow,  
then both leaf  
and leaf-shadow are lost.
